WORLD LEADER IN SEED PROCESSING  
EQUIPMENT AND SOLUTIONS

THRESHING

# Seed Thresher TMM-4210

This Seed Thresher is suitable for damage free threshing of vegetable, field (ROW) crops or hemp seeds out of relatively large quantities of plant material (seed siliques or umbels). The machine is well suited for breeding stations, production, and commercial processing plants.

## The main benefits for you:

- Continuous threshing process. Plant material can be supplied continuously.
- Preservation of seed quality thanks to an optimally controllable process (threshing and ventilation speed).
- Safe and dust-free threshing process.
- Quick and easy to clean between batches.

## The machine is very suitable for threshing of:

- Vegetable seeds from lettuce up to spinach.
- Hemp or cannabis seeds from buds.
- Field (ROW) crops seeds from oil rape up to sugar beet.

### Technical description Seed Thresher TMM-4210:

<b>Capacity</b>	
± 6 - 8 m <sup>3</sup> plant material per hour*	
* Indication, depending on crop and moisture content	
<b>Dimensions</b>	<b>Dust extraction points</b>
Length: 2362 mm Width: 2500 mm Height: 1726 mm	1 x Ø 200 mm, 2000 m <sup>3</sup> /h 1 x Ø 80 mm, 320 m <sup>3</sup> /h
<b>Noise emission</b>	<b>Materials</b>
± 88 dB(A) (measured without product when using dust suction unit)	Steel, plexiglass and synthetic materials
<b>Electrical connection</b>	<b>Finishing</b>
380 - 415 V (± 5%), 3 phase + 0 and ground, 50 / 60 Hz (other values available on request) Installed capacity: 7.5 kW (excl. optional compressor and dust suction unit) Connection value: 32 A (slow blow)	Powder coated, RAL 6029 (green) and RAL 1013 (crème)
<b>CE</b>	<b>Weight</b>
	± 930 kg
<b>Including</b>	<b>Options</b>
<ul style="list-style-type: none"> <li>• Collecting bin</li> <li>• Four supporting legs that are adjustable in height</li> </ul>	<ul style="list-style-type: none"> <li>• Threshing basket</li> <li>• Dust suction unit</li> </ul> <p>(One threshing basket and the dust suction unit are necessary for the machine to operate)</p>

## Part of the TMM Family

Type	Capacity
<b>TMM-4000</b>	A few single plants per batch
<b>TMM-4110</b>	From one to a few single seed plants per batch
<b>TMM-4200</b>	± 1 m <sup>3</sup> plants per hour
<b>TMM-4210</b>	6 - 8 m <sup>3</sup> plants per hour
<b>TMM-4220</b>	Nominal 8 m <sup>3</sup> plants per hour
<b>TMM-4300</b>	± 12 m <sup>3</sup> plants per hour
