

SERVICE & AFTERSALES

- ✓ **Installation, Commissioning and Training**
With our service team and service partners, we build complete seed processing installations and then provide training to your operators
- ✓ **Service and Support**
After delivery and installation of our machines and installations, we are of course ready to answer all your questions and resolve any malfunctions
- ✓ **Maintenance Contracts and Spare Parts Management**
To keep your equipment up-to-date and minimise downtime, we are happy to support you with a complete maintenance programme
